2018 NOVEMBER 18TH TO 23RD

**93rd JAYANTHI CELEBRATION OF
SRI SATHYA SAI BABA**

VENUE:

SAMITHY MANDIRAM, THEKKENADA, VAIKOM

Sairam,

We cordially invite you with family and friends to the 28th “Sri Sathya Sai Sangeetholsavam” to be held at Samithy Mandiram, Thekkenada, Vaikom.

With Pranams,

P.R. Prasad,
Convenor

“Devotional songs must be sung for the love of God and not for loving to sing. While singing, you must not be conscious of the voice, but the voice must sing being conscious of Him. You have not come here to compete in your talents to sing. You are here to raise yourselves with devotion, and with this love, you must invoke devotion in others. The song, My dears, belongs to Him, the voice that sings must be offered to Him, the tune that plays must dance to Him, and the rhythm, beat, and the clapping of your hands must be your applause to welcome Him.”

MANGALA ARATHY

SAMASTHA LOKA SUKHINO BHAVANTHU

Today, all the five elements (Earth, Water, Fire, Air and Space) are polluted and, consequently man is mired in insecurity. Today the world is losing its ecological balance as man, out of utter selfishness, is robbing mother earth of her resources like coal, petroleum, iron, etc. As a result, we find earthquakes, floods, and such other devastating natural calamities. Human life will find fulfilment only when ecological balance is maintained. Balance in human life and balance in Nature, both are equally important.

SWACHATA SE DIVYATA

Praana Shudhi: Immediately upon waking up in the morning and just before sleeping at night, sit up erect in the bed and breath in gently from the left nostril and breath out gently through the right (keeping the other nostril closed by pressing your finger against it). Then breathe in through the right nostril and breathe out through the left. Three such cycles need to be done.

Mana Shudhi: Immediately after the above, sit up with an erect spine and just observe the normal flow of the breath for three minutes. Keep the eyes closed gently and do not concentrate them at any spot. The same routine is to be followed at night time also.

Deha Shudhi: To protect yourself from sore throat, cold and cough, gently brush your tongue after having brushed your teeth. Thereafter, gargle three times and then rinse your mouth. Rinse and gargle your mouth each time you eat or drink something. Brushing the tongue results in harmful bacteria being removed thus reducing the chance of infections like sore throat, colds, coughs.

Deha Shudhi: Wash your hands with soap for 20 seconds before & after eating anything. Do not touch your face with unwashed hands. This will protect the eyes from infections like conjunctivitis and also protect you from cold, coughs etc. which result from touching contaminated surfaces and then touching your face with them.

Pariyavarana Shudhi: We are very closely related to trees - what the plants breath out we breath in and what we breath out the plants breath in. To protect our planet, each of us must get one sapling, name it and nurture it. The sapling can be kept at home till it matures and it is safe to plant it in any suitable place outside.
